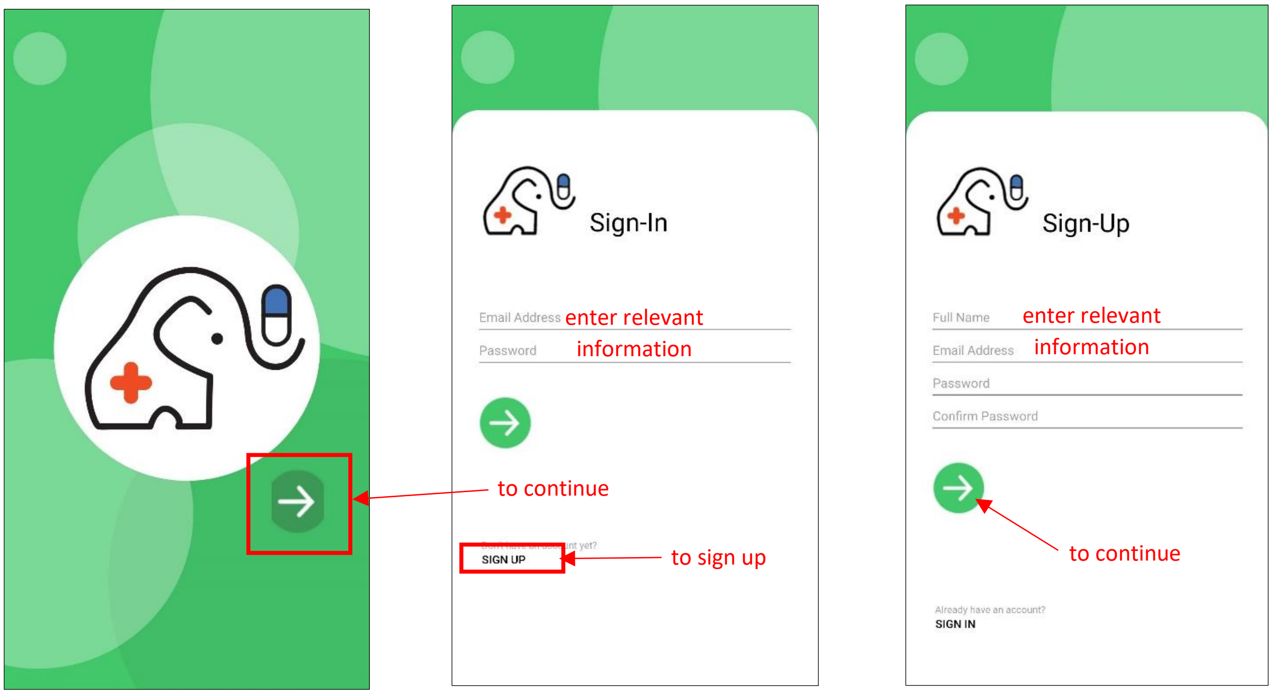
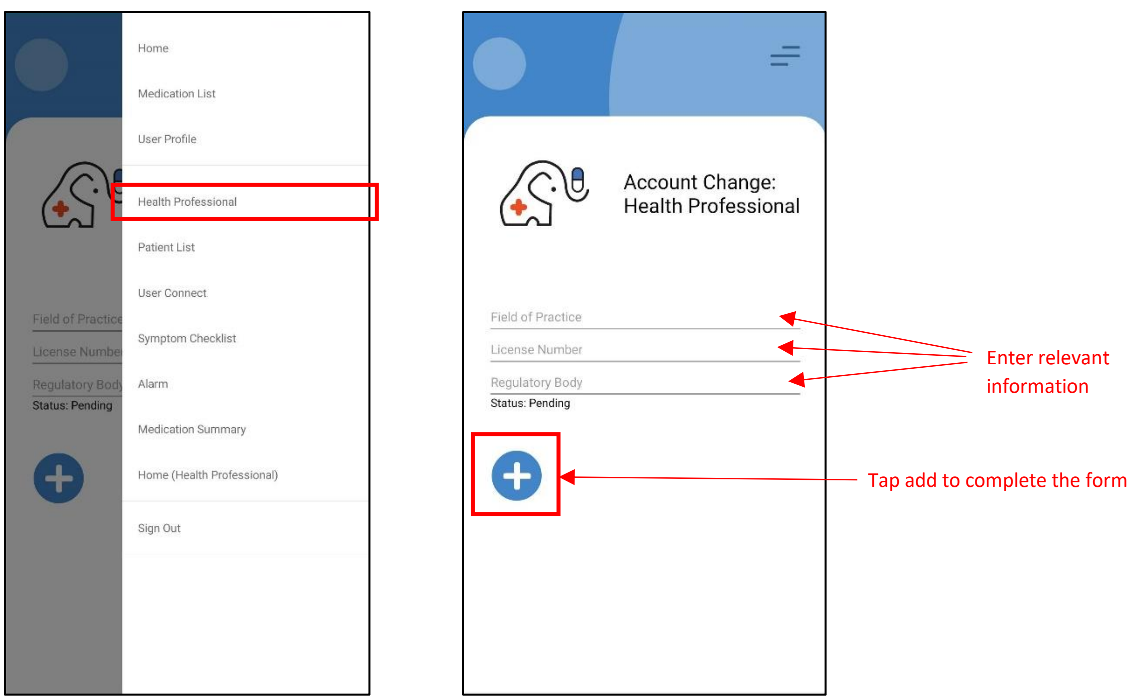
User Manual – NurseEllie Application

Getting Started

After connecting to our application, you will see the landing page. Tap on the 'enter' button to continue to the 'Sign-In' screen. If you do not already have an account. Tap on 'SIGN UP' to continue to the 'Sign Up' screen to register a new account. Tap the continue button when you are ready to continue to the Home page.

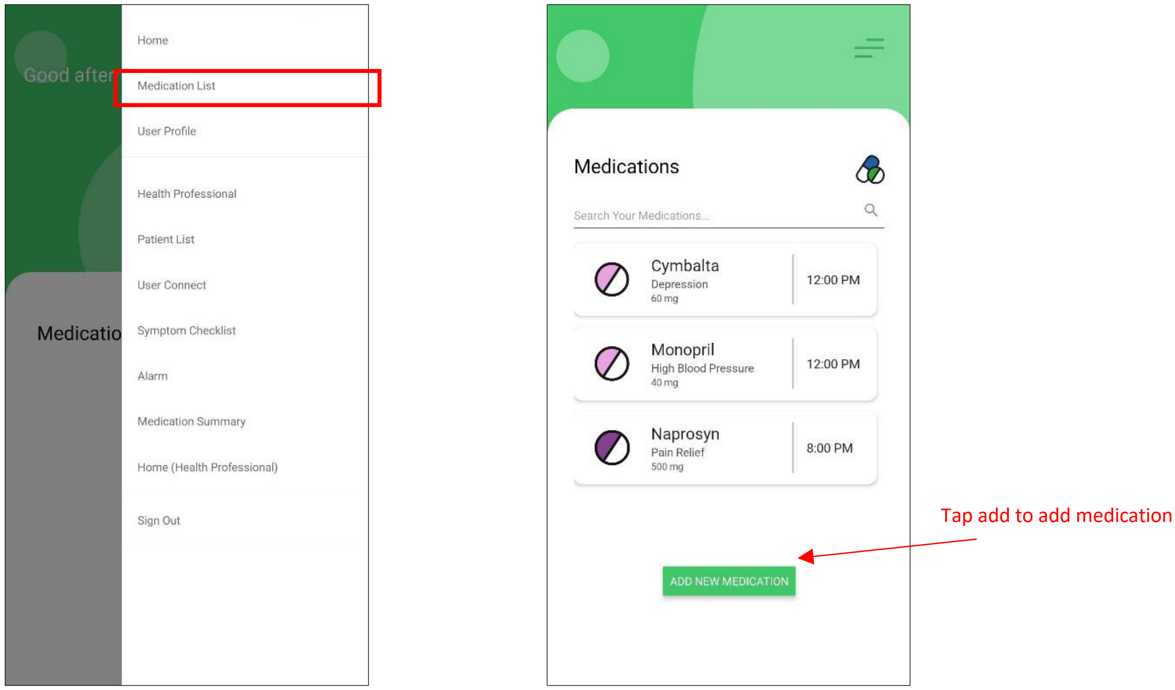


If you are a Health Professional, you will want to sign up for a Health Professional account. Go to the Menu drawer and tap on 'Health Professional'. Fill out the Health Professional form, to register. Once a NurseEllie representative approves your application, you will have a Health Professional account.

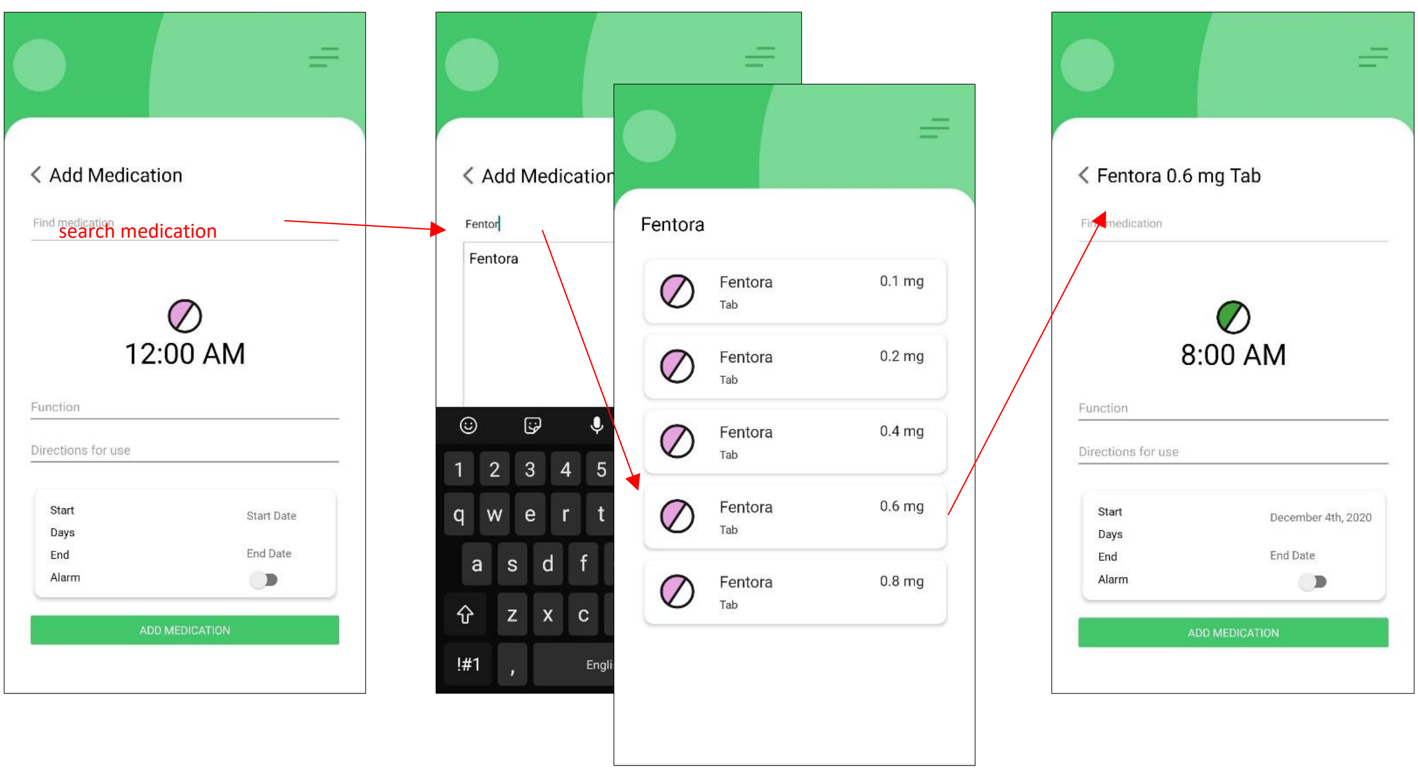


Manage Medications

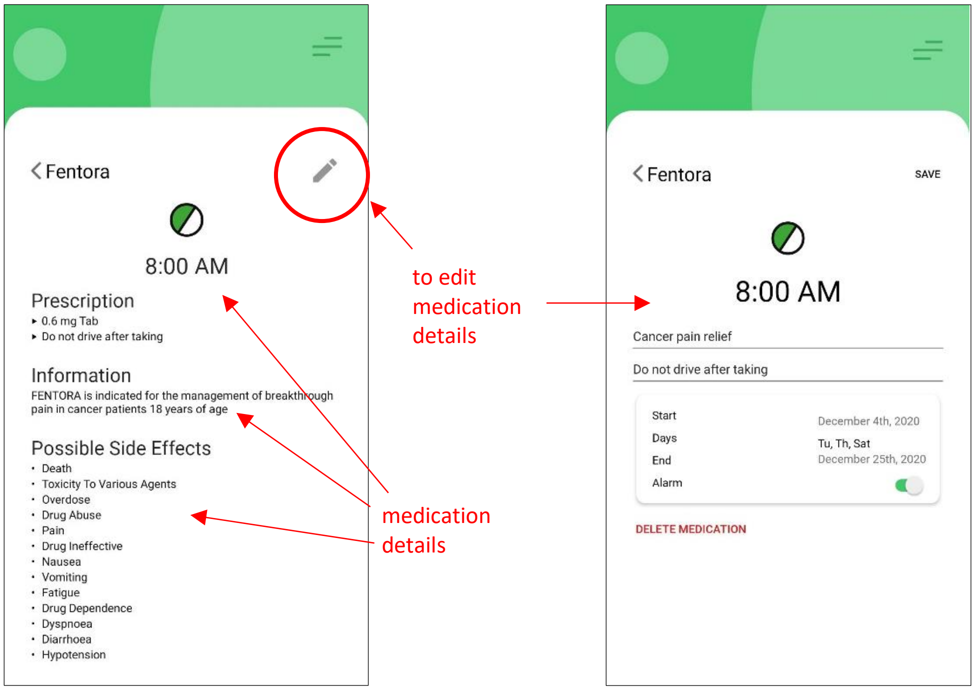
You can manage your medications by opening the Menu drawer and selecting Medications List. Here you will see a list of medications if you have them. You can select the ‘Add Medication’ button on the bottom to add a new medication.



Once you have selected ‘Add Medication’, you will continue to the Add Medication Form. At the top, you can search for you medication and select the dosage being taken. Enter the relevant information about your medication and click add. You will be redirected to your medications list with your added medication.

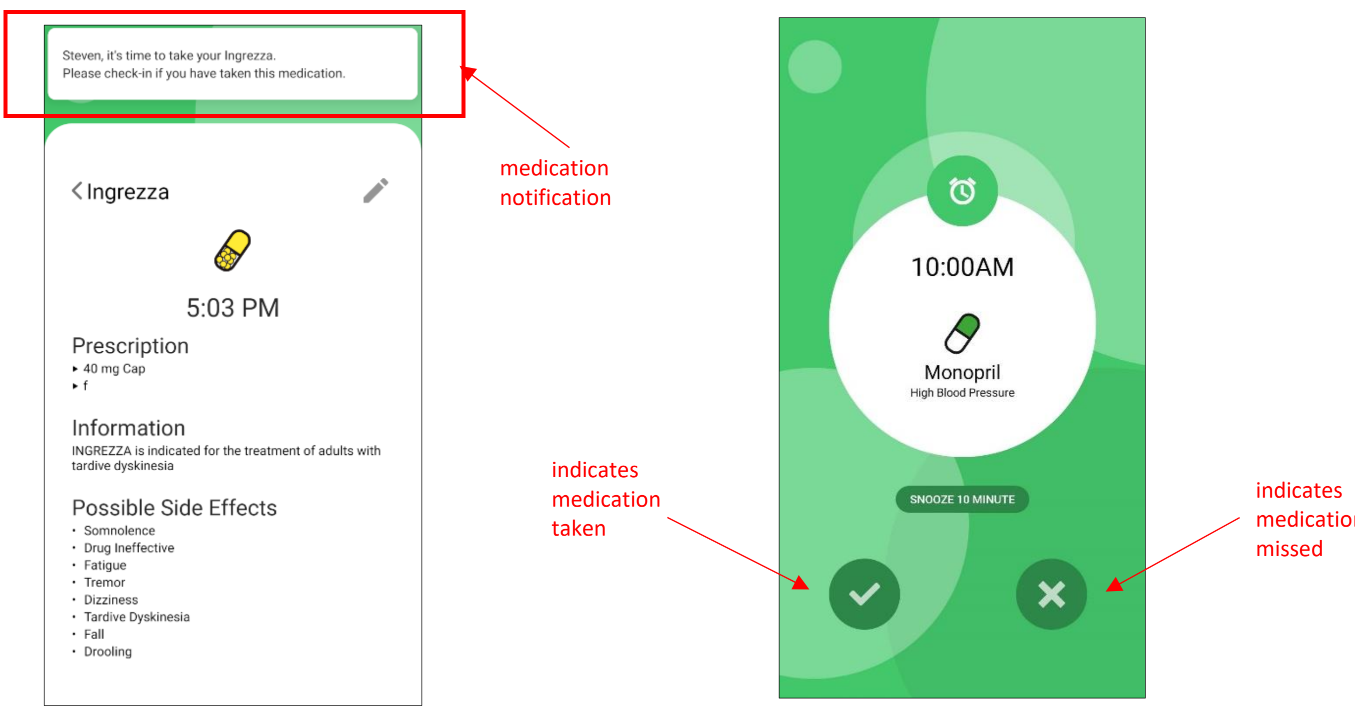


You can tap on a medication that you have added to view its details. To edit any details such as the alarm, click the pencil icon on the top right. You will be taken back to the form to change any details you may need.



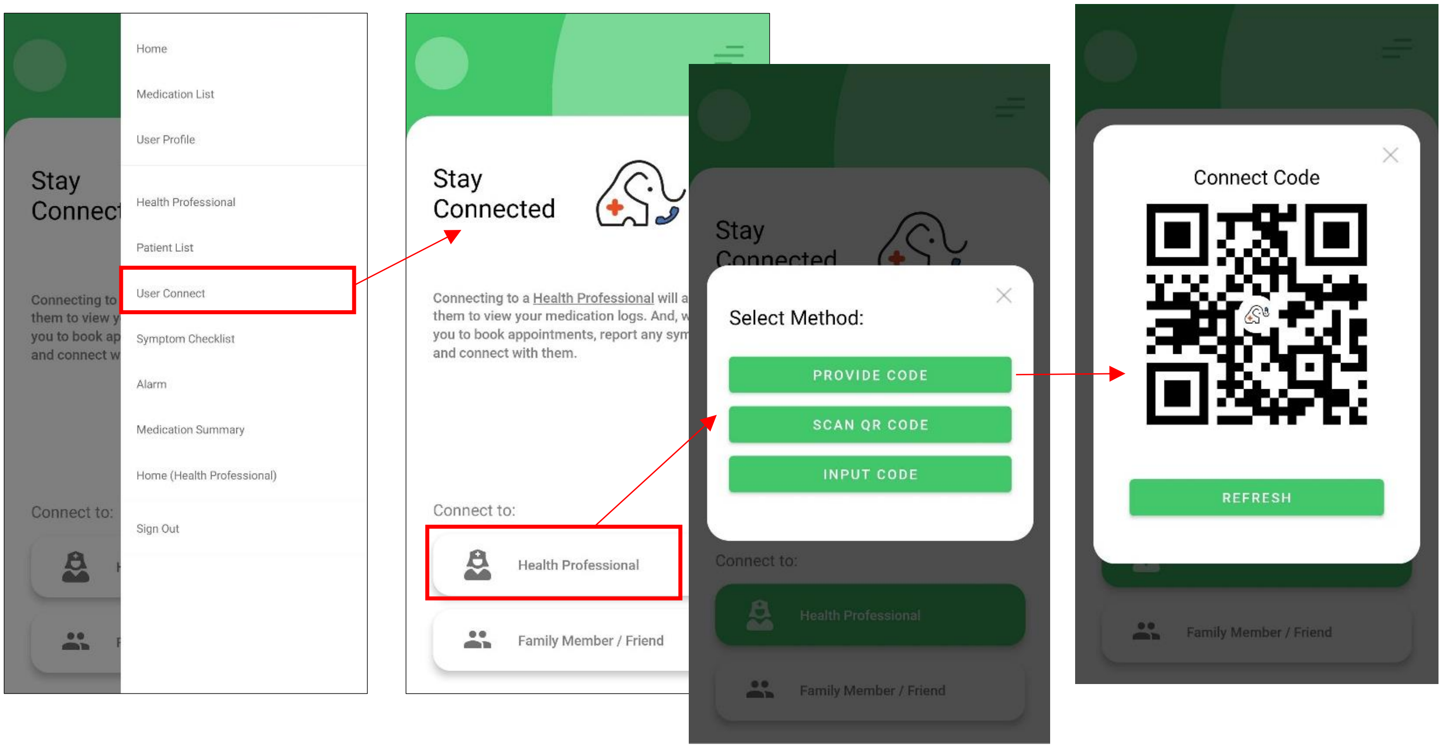
Medication Notifications

After a medication has been added and the alarm setting is on, you will receive push notifications when it is time to take your medication. Interact with the notification by tapping it and let your Health Professional know that you are taking your prescribed medication!



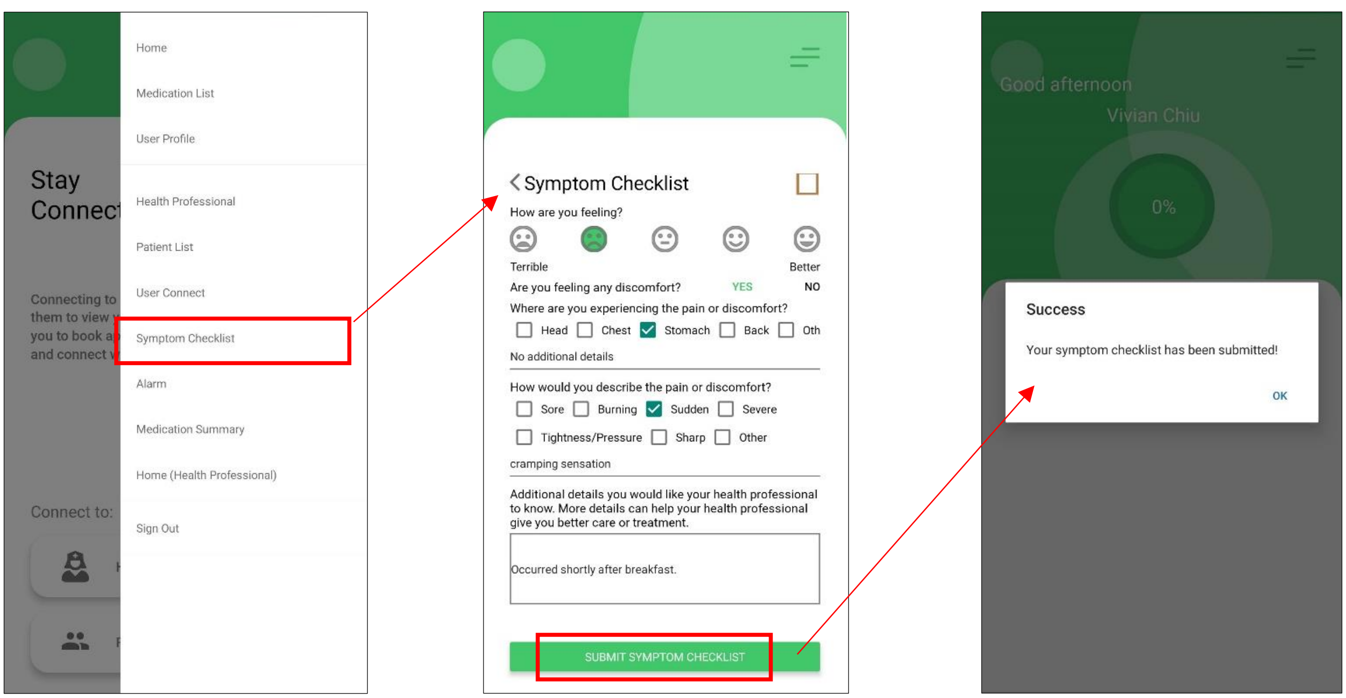
User Connect

To connect to a Health Professional, open the User Connect page using the Menu Drawer. Select ‘Health Professional’ and open QR scanner or QR code. And scan or, have your Health Professional scan your respective QR code. When a connection is made, you will receive confirmation.



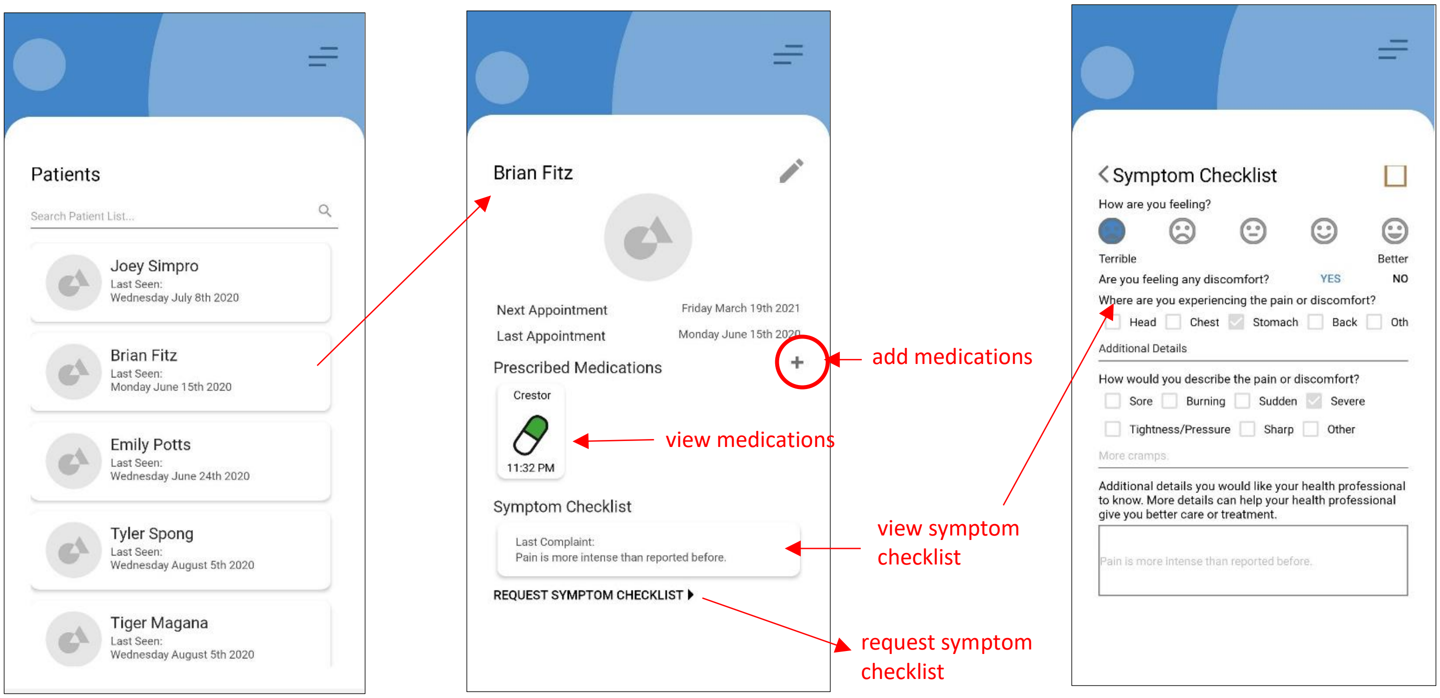
Symptom Checklist

Submitting a symptom checklist can inform your health professional of your recovery progress. Select symptom checklist in the menu drawer, complete the checklist and tap on ‘submit’.



Managing Patients

If you are a Health Professional, you can view a list of your patients through the Menu Drawer and selecting Patient List. To view details of a patient, just tap on their name. As their Health Professional, you



User Profile

You can view and edit your user profile by navigating to the menu drawer and selecting 'User Profile'.
